BALANCE

Each Day With Food & Play

Healthy eating habits and physical activity work together for better health. Making healthy food choices helps kids to grow, develop, and be ready to learn. Being physically active is fun and helps you feel good too!

Making smart food choices and being active every day . . .

- ~ Helps everyone keep mentally and physically fit.
- ~ Helps to maintain a healthy weight.
- ~ Helps reduce risks of serious diseases like heart disease, high blood pressure, type 2 diabetes, and some types of cancer.
- ~ Helps kids to grow and develop and provides them with the energy they need to learn and play.

School Breakfast Ensures a Nutritious Start Every Day

Breakfast builds better bodies! If your children don't have time to eat at home or simply aren't hungry first thing in the morning, have them give school breakfast a try.

It's a great option for all children, regardless of income! Here's why:

- ~ School breakfast supplies 1/4 of the Recommended Daily Allowances a child needs.
- ~ It's a healthy, nutritious meal that provides a variety of foods.
- ~ It's easy and convenient. You can feel comfortable that your child is eating a nutritious meal and getting the best possible start to a day of learning.

(Menu subject to change without notice)

COLD WEATHER NUTRITION: Exercising in the cold weather can bring some challenges for athletes who participate in winter sports. Ideal foods to consume are complex carbohydrates eaten 2 hours prior to exercise. Soups, chili, bread, bagels, pasta with tomato sauce, baked potatoes, cereals, peanut butter, lean meat, and low-fat cheese are good choices.

It's also important to drink plenty of fluids to keep hydrated and eat frequently to replace carbohydrate stores that are being used for exercise and warming.

If you don't replace this energy you will likely feel more fatigued and chilled. Plan ahead and bring energy bars, chocolate bars, trail mix, bananas, sandwiches or something that you like and will eat.
